

Legalization

The system of public and state involves the creation of legal relations in all spheres of society. The basic principle of the rule of law is the rule of law and rights. Thus all the mechanisms and processes occurring in society must conform to the regulations allowed legalized legalized in one word. Legalization almost like any legal term of Latin origin. The word legalis means legitimate. Most often, the concept of legalization used in financial economic and political values, the legalization of business income of state power etc. Some aspects of legalization should be considered more in order to understand the process of obtaining the status of the legality of an action. The bodies of state power of the Executive, legislative and judicial, regulate social relations in the country of issue legislation permitting or prohibiting certain actions by citizens and organizations. Legitimate needs to be not only current activities at the level of state control but also the origin and establishment of state authority as well as the organization and publication of normative legal acts of Supervisory and punitive functions in a word legalization the state authorities the compliance of all processes of governance to the current legislation in the country. However, a similar concept of the legitimation of state power at first glance in connection with the same origin of the word may meet the definition of legalization but these terms should not be confused. Legitimate authorities are in fact often coming into conflict with the law, but under the patronage of the public. It would seem what can be better support the power of the people but the mass consciousness is easy to change to mislead or intimidate millions of people for example, because it was during the reign of Nazi power in Germany. Documents which must be certified and legalized can have a completely different meaning and origin, these can be acts of civil status certificates and diplomas certificate creation and registration of legal entities and individual entrepreneurs, and many others. Without legalization documents are considered valid in other States. On the territory of the Russian Federation responsibilities for consular legalization of documents is vested in the Ministry of foreign Affairs. Giving legitimacy to the document is carried out in several stages and the sequence of actions is required only in the prescribed manner Consular mission of a foreign state also
