

Legalization of documents

Virtually any document with legal effect only in the issuing country but outside it becomes void and loses its legal force. Legalization of documents is the procedure recovery give legal force to a document in a foreign state. Legalization of foreign documents solves the problem of providing legally relevant papers to the competent authorities of a foreign country. Features is the possibility of its implementation solely in the state of issuance or execution of a document. It is possible to distinguish two types of legalization of official documents, apostille and consular legalization. The choice of specific procedures depends on the authorities of the state will provide paper. For example, legalization of documents for Spain is through the apostille stamp as in other countries participating in the Hague Convention. In turn, consular legalization of documents required for UAE, China and other countries have not signed the Hague Convention. Consular legalization is a more complex method of certifying in contrast to the apostille. The procedure of legalization of documents takes place in four stages After passing these four stages, the authorised bodies of foreign countries are accepting the document as legally binding. Legalization often provide notarized copies of birth certificates of acts of civil status of diplomas certificates. Legal entities are required to legalize the Charter of the company the Memorandum of the attorney other business papers. Foreign nationals are required legalization of the official documents on education to continue studies in rossiiskoevropeskoi educational institutions or for employment on a speciality.
